Note 1

The dotted ä, ʾ, **taa' marbuuTah**, is transcribed and pronounced as **h** when not followed by another word relating to it. But it is transcribed and pronounced as **t** when followed by a short vowel or by another word associated with it; e.g. **ʿaaSimat miSr**.

Note 2

The glottal stop (ʾ) is not used when initial, and is transliterated by its vowel i.e. the vowel following it. Final glottal stops in such position as: أ, و, ي are transliterated as (ʾ).

Vowels

short	long
ا a	آ aa
و u	وو uu
ي i	يي ii

Diphthongs

او aw
اي ay

shaddah (ّ)

The sign (ّ) is transliterated by doubling the consonant; e.g. تَمَّ **tamma**.

Hyphens

Hyphens are used to differentiate the definite article, inseparable prepositions, conjunctions, prefixes and sometimes attached pronouns from the main body of the word.

The following remarks will help you to grasp some secondary points about the transliteration system of this book.

1. The definite article will be transcribed:

- as **al-** at the beginning of words starting with a moon consonant like **m** and **j**; e.g. **al-maTaar**, **al-juz'u**.
- as **a + the consonant sound itself** at the beginning of words starting with a sun consonant like **s** and **th**; e.g. **as-sayyid**, **ath-thaanii**.
- as **l-** when preceded by a word ending with a vowel, and followed by a moon consonant; e.g. **ʿalii l-halabiy**.
- as the **consonant sound** itself when preceded by a word ending with a vowel, and followed by a sun consonant; e.g. **masaa'u n-nuur**.

The moon consonants are **b, j, h, kh, ʿ, gh, f, q, k, l, m, h, w, y, ʾ**, while the sun (solar) consonants are **t, th, d, dh, r, z, s, sh, S, D, T, Z, n**.

2. hamzatu-l-waSI is only actually pronounced at the beginning of a word, e.g. **ibn** ابن, but at other times it is merged into the vowel of the previous word; e.g. مَا اسْمُكَ .

3. Final short vowels

As a rule, we have tried to avoid using the final short vowels (vowels at the end of words) in order to simplify the learner's task; but in the case of words ending in consonants and followed by the definite article, **al-**, we had to use the final vowels to avoid saying two consonants in the same breath, a practice not common to Arabic. We shall also vowel the endings of pronouns, prepositions and particles when needed.

For the use of the final short vowels, consult the Handbook, Appendix 2C, in the case of nouns, and Appendix 6 in the case of verbs. Remember that you needn't use these two appendices unless you wish to clarify a certain point or understand why the endings of words sometimes change slightly; for, as we have mentioned above, we have adopted the method of omitting the final short vowels whenever it is possible to do so in this course.

4. The hyphen (-) is used, as in the word **al-juz'u**, to indicate that two units must be treated as one word; while the sign () is used to indicate that two separate words should be linked together in speech without allowing a pause between them.

5. Words of non-Arabic origin

To transliterate words of non-Arabic origin, we have followed our method in transliterating the Arabic text except for the sound of the vowels which don't

exist in written Arabic. These will be dealt with in the following way:

vowel		transliteration
o	like o in on	o
o	like o in bone	oo
e	like e in let	e
a	like a in late	ee

It is important to remember that we are going to transliterate the non-Arabic words according to their Arabic pronunciation.

As for the consonant sounds that do not exist in Arabic but have been used in the course, the following remarks will help you deal with them:

a. The consonant g

We have used the symbol **g** to represent it in our transliteration system; e.g. **garsoon** جَرْسُون. In Arabic script it is written as ج.

b. The consonant v

We have used the symbol **v** to represent it in our transliteration system. In Arabic script this consonant is usually represented by ف

c. The consonant p

The letter **p** is used to represent it in our transliteration system. A non-Arabic word containing a **p** is usually written with ب, like the word **asbiriin** أسْبِيرِين.

The English Translation

This has been provided to convey the meaning of the Arabic text. Where a literal translation would help the student to understand the structure of an Arabic sentence, this has been included in brackets.

Journalism

Part one

Amin Kamel I'm Amin Kamel.

I would like to tell you something (I want to talk to you) about myself:

I'm a (the) cousin of Mr. Hassan Murad,

I'm a journalist.

In the Arab world there are many newspapers and magazines,

some are daily (appear every day),

some are weekly (appear every week),

and some are monthly (appear every month).

I'm the editor of a weekly magazine,

it is called "The Modern Arabic Society".

I like working in journalism.

Journalism deals with the problems of society,

not in Egypt alone,

but in the rest of the Arab world as well (but in the entire Arab world).

I'm happy because I'm in the service

of such a noble profession (of Her Majesty): the press.

Amin Kamel How do you like (Did you admire) Cairo,

Miss Nabeela?

Nabeela I like (admired) it very much,

only there is one thing I didn't like.

Amin Kamel What was that (What is it)?

Nabeela Sitting in the pavement coffee houses (Sitting on the pavement in the coffee houses).

Many people sit there (sit) for hours,

doing nothing except killing time,

Alas!

Amin Kamel Miss Nabeela,

I like to hear (from you these ideas) you say that.

Therefore, I should be pleased if you can (I beg you to) write an article about this problem

so that I might publish it in my magazine.

Nabeela I promise (you) to write this article.

Amin Kamel Thank you.

The right solution

Aziz What are the main problems of our (in the) society?

Fareeda Three problems; they are:

Poverty, ignorance and disease.

Aziz How do we treat these problems?

Do we start with the problem of poverty,

because it is the cause of both (it causes) ignorance and disease?

Or do we start with the problem of ignorance

because it leads to (causes) poverty and disease?

Or do we treat the problem of disease first?

at the same (one) time!

Lesson sixteen The seashore Part one

Hassan Murad We are now in the city of Alexandria.
 Alexandria is a large and beautiful city,
 (set) on the Mediterranean coast.
 The weather is hot today,
 because it is Summer (we are in the Summer season).
 That's why we came to the beach (seashore).
 The sea is calm today;
 there aren't any waves in it,
 and the colour of the water is blue.
 The sands are soft and they are golden yellow.
 The sea is full of people, grown-ups and children,
 who are playing, swimming, jumping and running.
 The shore is crowded with (full of) people,
 sitting under (the) sun-shades
 or on the sands.
 Some of them are eating sandwiches,
 and some are eating ice-cream,
 or drinking cold drinks.
 They are all happy,
 talking and laughing.

Nabeela Story-wise.

The young man meets the young lady in the university.

They fall in love (He loves her and she loves him),

then they have a misunderstanding (then a misunderstanding occurs)
because of another person.

But, eventually, they discover that they still love one another.

Samy In my opinion, such a thing does not happen in real life.

This is mere fantasy (imagination).

Amin Kamel What do you think about the acting?

Samy The acting was really excellent (was excellent indeed).

Nabeela And the music was very lovely.

But what about you (and you) Mr. Amin;

what did you like in the film?

Amin Kamel I liked the production side of it (its production).

The producer (director) is really an ingenious artist.

A postcard from Baghdad

Part one

Nabeela Al-Halaby Today I received a postcard from Baghdad;
 it was sent to me by one of my friends.

Her name is Leila;

she's one of my fellow students at the University of Damascus.

She went to visit Baghdad at the end of July.

I am going to read the postcard which I received from her:

Baghdad, Sunday, 1st August 1976.

My dear Nabeela:

I'm writing to you from Baghdad, the city of Haroon Al-Rasheed,
 and the stories of the Arabian Nights (one thousand nights and one).

I arrived with my sister, Hind, last week;
 we have visited some historical places, some mosques,
 and some (the) famous museums in which we saw the antiquities
 of the Babylonians and the Assyrians, in addition
 to the Arabic antiquities of the Abbasids.

We have also visited the oil refineries (factories for the refining of petrol),
 and we walked

many times by the Tigris (on the Tigris bank).

In the city of Basra, in the south of Iraq, we saw

An Egyptian and an Iraqi talk

Samy Let's make a comparison between (Let's compare between) Cairo and Baghdad.

Mohammad Baghdad is older than Cairo,
because it was built in 760 A.D.

So it is now more than 1200 years old
(so its age now is more than 1200 years).

How old is Cairo?

Samy More than a thousand years,
but don't forget that before that (that date)
the capital of Egypt was near there (that place).

Mohammad What's the population of Cairo?

Samy About seven million.

Mohammad Good heavens! Baghdad has only three million!

Samy Cairo is on a long and important river,
the Nile.

Mohammad Don't forget that Baghdad's on a great river as well,
it is the Tigris.

Samy Anyhow, Baghdad and Cairo are sisters.

Mohammad That's right.

Clerk You take (ride) the train from Istanbul to Munich.
 Then from Munich to Paris.

Talal How many hours does the journey take?

Clerk You might as well say (you want to say), 'how many days' not 'how many hours?' About four days.

Talal No! in that case,
 I'll travel by plane.

Part three **Fifty cards**

Aziz I'm going to buy some postcards.

Samy How many do you want?

Aziz I want fifty cards.

Samy Why do you want all these cards?

Aziz To send them to my friends.

Samy Why don't you write them letters,
 instead of cards?

Aziz I haven't got time for writing fifty letters.

Shehrezad

Nabeela Have you read 'The Arabian Nights' (One Thousand Nights and One).

Amin Kamel Yes, I have.

Nabeela Did you like it?

Amin Kamel Yes, I liked it very much.

Nabeela Would you like to be King Shehreyar?

Amin Kamel Yes, if there were a girl like Shehrezad!

Nabeela 'The Arabian Nights', as you know,
 speak of Haroon Al-Rasheed,
 and the beauty of Baghdad in his time.

In my opinion, Shehrezad was the first Arab lady novelist.

Amin Kamel A great (skilful) writer, a beautiful woman,
 and a poetess with great imagination.

Lesson nineteen
Al-Azhar Mosque
Part one

Hassan Murad I'll talk to you today about Al-Azhar Mosque:
Al-Azhar is a large and ancient mosque in Cairo,
it is more than a thousand years old.
It is the centre of Islamic studies
and theology (theological studies) not only in the Arab world,
but in the world as a whole.
Moslem students come to it
from all parts of the world.

Recently (in the last years),
Al-Azhar became a modern university,
where students could study (learn), many other (the other) subjects,
like medicine, agriculture and engineering.
One of the most famous writers who studied at Al-Azhar,
is the Egyptian writer Taha Hussayn,
who studied first at Al-Azhar,
then left for France,
where he continued (studied) at one of its universities.
Taha Hussayn wrote a book called 'Al-Ayam',
it's his autobiography (the history of his life).
This book has been translated into many languages.

Taha Hussayn died in 1973,
(one thousand and nine hundred and seventy-three)
may God have mercy upon him.

Lesson twenty Football Part one

Samy Murad I like sports,

I belong to a (I'm a member in a) sports club.

There are many different sports
like football, net-ball, badminton,
tennis, golf and swimming.

Today, in the afternoon,

I'm going to watch a football match,

between an Egyptian team and a team from Nigeria,
in the stadium of the Al-Ahly Club.

In Egypt there are many football teams,

like Al-Ahly, Al-Zamalik, Al-Itihad and Al-Olimpy.

Naturally I support the Egyptian team.

I hope it wins this match.

I've invited Nabeela to watch the match.

She hasn't been to any football match yet;
that's why she is eager to go (attend).

Part two The first half

Nabeela There's a very large crowd.

Samy The game will start in a few minutes.

Nabeela Do you expect the Egyptian team to win?

Samy Yes, the Egyptian team is excellent.

Both the defenders (players of defence) and the attackers are first class,
 and the goal keeper is a well-known player.

Nabeela Look at that player who's passing the ball now!

He's running quickly!

Samy That's a clever player... look at that other player;
 he's kicking the ball powerfully.

I expect he will score two or three goals.

Look!... he's scored a goal (hit the target) bravo!... Goal!...

Bravo!... Great!...

Nabeela Who's that man who's blowing his (in a) whistle?

Samy He's the referee.

The first half is over:

one-nought.

The second half

A draw!

Samy The weather's hot... would you like us to drink
 a bottle of fruit juice?

Nabeela That's a good idea.

I would like to drink (I wish we would drink) mango juice.

Samy Wait a moment... I'll bring two bottles
 from that man (seller).

Nabeela Thank you. This juice is very delicious.

Samy The second half will start immediately.

Nabeela The people are excited (enthusiastic),
 and they are cheering loudly.

Samy Look! One of the players has fallen on the ground!

He's in pain!.. He's on his feet again (He stands again)!

Thank God! For he's a good player.

Look at number seven (player number seven):

he's approaching the goal fast,

he has scored a goal (hit the goal)!

Nabeela The referee's blowing his whistle (whistling).

The second half's over.

Samy And the result is one : one.

It's a draw (The two teams are equal).

Lesson twenty-one
Black gold
Part one

Amin Kamel I've received (received) this letter from an Arab friend;
his name is Aly Yunes,
and he's visiting Kuwait, now:

Kuwait, Thursday, 15th July, 1976.

Dear Amin,

I am writing to you from the richest country in the world,
from Kuwait, the small developing country whose income
is (amounts to) one million dollars every hour! There aren't any
poor or unemployed in Kuwait, nevertheless
people here don't pay any taxes!

In Kuwait now we find all the manifestations of
modernization (modern civilization); luxurious buildings, wide streets,
big schools, hospitals
and cars of the latest model.

All this progress (growth) comes from oil (petrol).

Long live black gold!

See you soon (Until our next meeting),

Your sincere friend,
Ali Yunes

Lesson twenty-two At the railway station Part one

Hassan Murad In the middle of Cairo
there is a large square, called Ramases Square.
The railway station is in this square.
It's a big station,
with many platforms (and inside it many platforms),
and many windows for first-class,
second-class and third-class tickets.
It contains in addition, an office for enquiries,
an advance reservation office,
a left luggage office, and a large buffet.
The station's full of people:
that person's leaving (this is a departure),
while that one has just arrived (and that's an arrival);
a man is saying good-bye to his friends (departing friends),
while another (and that) is greeting (welcoming) some people who have just
arrived.

rejoicing and crying,
leave-taking and greeting (welcoming);

Lesson twenty-three Luxor and Aswan Part one

Amin Kamel Luxor and Aswan are two
 well-known (two of the famous) Egyptian cities.
 Every year thousands of tourists come to Egypt,
 to see the antiquities (remains) of ancient Egypt,
 like the Temple of Karnak, the Valley of the Kings,
 the Valley of the Queens, Abu Simbil Temple;
 and the High Dam.

I am at Luxor railway station;
 it's seven o'clock in the morning.
 Soon (after a little), the train will arrive from Cairo,
 with Mr. Al-Halaby and his family on board.
 It will be a surprise for them
 to find me (to find that I'm) waiting for them here!
 I didn't come by train from Cairo,
 but I came by plane.

I am not going to return to Cairo by air;
 instead (but), I shall spend a day with Mr. Al-Halaby's family
 in Luxor,
 and a day in Aswan,
 then we shall all go back to Cairo by train
 on Friday if God wills.

 Please, Mr. Amin,
 tell us something about (give us some descriptions of) the High Dam.
 Amin Kamel Its length is more than three kilometres
 and its height is about 250 metres,
 nearly a quarter of a kilometre.
 Aly Al-Halaby I think that building (work at it) started in 1960
 (one thousand and nine hundred and sixty).
 Amin Kamel Yes, and it took (lasted) ten years.
 Mrs. Fawziya That's a long time!
 How many labourers took part in the work (worked at it)?
 Amin Kamel More than thirty thousand labourers!

Nabeela And the lake that formed behind the dam;
what is it called?

Amin Kamel It's called Lake Nasser.

It's 500 (five hundred) kilometres long,

and 10 kilometres wide.

Mrs. Fawziya It's a very big lake!

Amin Kamel Yes. The Dam saves the waters of the Nile,
preventing it from (instead of its) being wasted in the sea.

Aly Al-Halaby And, of course, the Dam has another important function:
it is generating electricity

for use in the running of factories and machines,

and for lighting and different domestic purposes.

Mrs. Fawziya Those are great benefits.

Part three

Electricity

Fatima Electricity has made domestic labour an easy matter (easy),
hasn't it?

Kareema Naturally! We use electricity for many purposes:

we wash our clothes by electric machines,

we cook by electricity...

Fatima And radio and television are run by (are by) electricity,

so is lighting (and lighting by electricity),

and so is cleaning floors and carpets.

Kareema Electricity plays a great role (is very important) in our lives.

Fatima But don't forget that (one thing)

when electricity is cut off, everything stops!

The electric switch

Amin Kamel Miss Leila: please

type this letter (write this letter on the typewriter).

Secretary Sorry Mr. Amin.

The typewriter's out of order (isn't working)!

I have been trying for an hour in vain (without result)!

Amin Out of order? How?

It is a new electric machine;

it cost (its value is) 270 (two hundred and seventy) pounds!

Lebanon

Part one

Samy Murad My friend Rafat will return from Lebanon soon;
he sent me the following letter:

Beirut, Wednesday, 21st July, 1976.

My dear Samy,

Greetings (I send you my salutation and my greetings) and I hope that
you and your family are well.

I shall return to Cairo with my parents (my father and mother)
at the beginning of next month, after a year spent (we spent)
in Lebanon.

This year I have been studying (I studied) at the American University in
Beirut; next year I shall be studying (I shall study) at the American
University in Cairo, if God wills.

How beautiful Beirut is, Samy! Its landscapes (natural scenery)
are extremely lovely! Its mountains, hills
and beaches are superb. It's night clubs are fascinating.

How pleasant are the Dabka folk dances and the traditional Lebanese songs!

People say, 'Lebanon's the Switzerland of the East!'
but they ought to have said, 'Switzerland's the Lebanon of the West!'

Nevertheless, I'm longing to come back to Cairo (I long for Cairo).

I hope to find you in good health (to see you well).

So long,

Yours (the faithful)
Rafat

 Kareem On what matter?
 Saleem Tomorrow an American student is going to visit me.
 He is passing on his way to Australia,
 and he'll spend one night here.
 Where do you suggest we go?
 Kareem To the museum, the Citadel, the Al-Azhar and...
 Saleem But he'll arrive (come) in the evening, not in the morning,
 and will leave at dawn.
 Kareem Take him to a night-club, then.
 Saleem That's a wonderful idea!
 He'll listen to the Egyptian songs and Arabic music.
 Kareem And he'll watch (see) folk dancers (dancing).
 He'll like 'belly-dancing'.
 Saleem A wonderful suggestion! Consequently I invite you
 to meet my friend, and go with us
 to a well known night-club...
 Kareem I'll come if you promise to pay the bill (I'll come on one condition
 that you pay the bill)!

Samy What are you going to do next year,
 after you finish your secondary school education, Sameer?
 Sameer I'm not sure, Samy.
 In fact, I'm not thinking of going to (entering) university.
 Samy But you ought to (must) study something.
 Sameer I'm thinking of studying music.
 That's why I might apply to (enter) The Institute of Arabic Music.
 Samy Which musical instruments do you like?
 Sameer I like the lute, the piano and the violin.
 Samy Do you like western music?
 Sameer Yes, certainly.
 Samy And jazz (the music of jazz)?
 Sameer No! I prefer classical music.
 Samy I wish you success.
 I hope (If God wills) you'll write for us an Arabic symphony,
 Professor Sameer Beethoven!

Rafat Where shall we go Salma?
Today's Sunday;

Salma Why don't we go to the mountain,
and look at the lovely views (natural scenes)?
Rafat This is a wonderful suggestion!
We'll go to a small mountain village,
and spend the day in a pine wood.
Salma And when we feel hungry we'll go to a small restaurant,
and eat under the trees.

The hairdresser

Part one

Sameera Murad I've (I had) been invited to a party
at the club today,
so I went to the hairdresser this morning,
after making (I had reserved) an appointment
at ten o'clock in the morning.

I like this hairdresser's salon, because it's clean and tidy.
I sat in a comfortable chair,
in front of a big mirror and a basin.
The hairdresser took (brought) a clean towel,
and put it round my neck and over my shoulders;
he opened a little drawer on the right side of the mirror,
and took out of it a comb and a pair of scissors.
He opened another drawer on the left side of the mirror
and took out a hair brush.
He shampooed my hair (washed it with shampoo),
and then he cut its ends. Following that,
he set it beautifully (in a beautiful fashion),
while I was listening to some quiet light music.
Afterwards I sat under an electric hairdrier,
and started reading an illustrated magazine.
Half an hour later
everything was completed.

Part two

At the hairdresser's (barber's)

Samy I want to have my hair cut (cut my hair) please.
Hairdresser Sit down here, please.
How do you want me to cut it?
Shall I shorten it a little?
Samy I prefer to leave it a little bit long
on both sides, and at the back.
Hairdresser Very well, I'll wash your hair first.
Samy Not with soap, of course!
Hairdresser No, with shampoo. I have a special kind of shampoo
for dry hair..., afterwards, I'll use (for you) some
hair tonic (a chemical for strengthening the hair)...

Do you like the way your hair looks,

or do you like to have it parted in the middle?

Samy No! I like it like this. Thank you.

It's very simple

Kareema Have you noticed, Fatima,
 that Amina's hair is always very lovely?

Fatima Yes, I noticed that.

Kareema I wonder... does she go to the hairdresser every day,
 or does she set it herself at home?

Fatima I'll tell you the truth Kareema:

she never goes to the hairdresser,

because she doesn't have the time for it.

Kareema Then she must be very skilful in the way she arranges her
 hair (in arranging her hair by herself)!

Fatima No, my dear.

She doesn't even know how to hold a comb...

Kareema Is her husband a hairdresser then?

Fatima No... it's all very simple (the subject's simple):
 she wears a wig.

Part three

I cut myself

Samy What's that wound on your cheek?

Has anybody hit you, Aziz?

Aziz No... I cut myself while I was shaving.

I was in a great hurry this morning, and didn't pay much attention.

Samy Don't you use an electric razor (electric shaving machine)?

Aziz No, I use an ordinary razor (I use shaving blades).

Samy Oh, brother! Why don't you buy yourself an electric razor?

Aziz What shall I do if the electricity goes off?

Do I go (stay) without shaving?!

Lesson twenty-six Arabic stories and proverbs Part one

Patience is the key to deliverance (relief).

Time is gold (from gold).

Love is blind.

A true believer's heart is his guide.

We blame our times while we should blame ourselves.

How similar is tonight to yesterday night (yesterday)!

There is no use in repentance after calamity.

He who digs a hole for his brother stumbles (falls) into it.

Time is like a sword, if you do not use (sever) it, it severs you (cuts you off).

A white coin is useful on a black day.

Seek a neighbour before a house, and a friend before the road.

If speech is silver then silence is golden.

Slowness (Deliberation) is safety, and haste is regret.

Part two Joha

Hassan Murad I'm going to tell you a story about Joha:

One day Joha stood up to address a crowd (the people).

He said to them,

'Do you know what I'm going to say to you?'

The people replied (said), 'No, we don't know.'

Then Joha said to them,

 A few days later he came back and said to the people:
 'Do you know what I'm going to say to you?'
 They replied (said), 'Yes, we know!'
 He then said, 'If (as long as) you know, there is no need
 for me to tell you anything.'
 He left them and went away.
 A few days later he returned and said to them,
 'Do you know what I'm going to say to you?'
 Half of them said, 'Yes! We know.'
 And the other half said, 'No! We don't know.'
 Joha said then, 'Half of you are learned and half are ignorant.
 In that case: let the learned inform the ignorant.'
 He left them and went away.

A big feast!..

Amin Kamel I, too, will tell you one of Joha's stories:
 Some children were playing in front of Joha's house.
 He wanted to send them away (from in front of his house).
 He said to them,
 'Children, don't you know that there's a big feast,
 for everybody (all the people) at the Governor's house now? Why don't
 you go there to eat and drink?'
 The children were delighted and rushed (ran) to the Governor's house.
 In a little while Joha began to run as well.
 His wife asked,
 'Where are you going (running) to, Joha?'
 He answered (said),
 'To the Governor's house! It might be that what I have told the children
 is true!..'

My better (sweet) half

Samy Murad Now it's my turn to tell you something about Joha:

Joha wanted to go on a journey with his wife.
 In the railway station Joha bought
 one and a half tickets (bought one ticket and half a ticket) and he and his wife
 got into (rode)
 the train. A little later the ticket collector (the inspector) came and said,
 'Where are your (the) tickets?'
 Joha gave him the one and half tickets.
 The ticket collector said,
 'But you ought to have two (complete) tickets
 not one and half'.
 Joha replied (said),
 'This half is for my wife,
 because she's my better half (sweet half)!'

Lesson twenty-seven

Getting ready for the journey

Part one

Aly Al-Halaby At nine o'clock this morning,
 the telephone rang (the bell of the telephone rang) in my room at the hotel.
 It was a long distance call... from Damascus,
 and the caller was my brother Khalid.
 He enquired about our family news,
 and the date of our travelling back to Damascus.
 I told him we intended to leave here the day after tomorrow.
 He promised to wait for us at Damascus airport,
 at four o'clock in the afternoon.

After that, I contacted the branches of our firm
 in Amman, Khartoum and Riyadh.
 The line was engaged,

wa-li-haad^hhaa_ntaZart muddah Tawiilah,

As for my wife, she went with Nabeela
to buy what they needed (some necessary things),
and some presents for our relations and friends;
that's why I'm afraid that we might have plenty of luggage...
I hate to travel with many suitcases,
and I like to travel lightly.

Part two

A modern poetess

Nabeela I would like (want) to introduce one of my friends to you, Amin;
this is Fareeda... a student at the university here.

She writes poetry.

Amin Kamel Nice to meet (welcome to) the poetess... How do you do?

Fareeda Thank you Mr. Amin.

I have some poems with me:

I hope you will read them and publish them in your magazine,
if you like them.

Amin Kamel They seem to be beautiful poems...

Only I notice that most of them are about spring or autumn.

Fareeda Yes! I like spring and autumn,
and hate summer and winter!

Amin Kamel But those are old-fashioned (old) themes, young lady.

Nabeela Don't judge Fareeda's poems
before you read them carefully (well)!

Amin Kamel You're right (so be it)...

After two days I will have finished studying them.

Can you come to see me next Monday?

Fareeda Yes. Thank you (I'm thankful) Mr. Amin.

Amin Kamel Don't mention it, Miss Fareeda.

Happy feast
Part one

Hassan Murad Today is the first day (first day of the days)
of the blessed Feast of Sacrifice.
Yesterday was the Wakfa;
this feast is also called the Greater Bairam (Greater Feast).
There's another feast which is called the Lesser Bairam (Feast),
it is the Blessed Feast of the Breaking of the Fast.
It comes at the end of the month of fasting,
Ramadan the glorified.

During the feast all government offices (administrations) have a holiday,
and banks, companies, schools and universities are closed.
In the morning Moslems go to mosques,
and perform (pray) the prayers of the feast.
People greeting one another say:
'Happy feast' ('May you be well every year').
The small children enjoy the feast:
they wear new clothes,
go to the circus and the fairs
and play with coloured balloons.

A happy (blessed) feast!
And may you be always (every year) well!

Part two
The Pilgrimage

Aziz What are you going to do at the feast, Kareem?
Kareem I'll go to my town on Wakfa day, Monday,
and stay there Tuesday, Wednesday, Thursday

 Aziz Are you going to sacrifice (slaughter) a sheep at the feast?
 Kareem Yes, every year we buy a sheep and slaughter it.
 Aziz What do you do with it? Do you eat it all?
 Kareem No, we don't eat it all,
 but we give a big share (amount) of its flesh to the poor.
 And you, Aziz... what are you going to do at the feast (in the days of the feast)?
 Are you going anywhere?
 Aziz No, I'll stay in Cairo,
 because my father is coming back from Mecca after the Pilgrimage.
 I'll wait for him at the airport, if God wills.
 Kareem May you be always well (Every year and you are well)!
 Aziz And may you enjoy health and safety (And you are in good health and safety)!

Happy Feast

Saeed My wife gave birth to a baby yesterday,
 and we haven't found a suitable name for him yet:
 She wants to call him after her father (give him her father's name)
 'Mahmood',
 and I want to call him after my father 'Mustafa'.
 We don't know what to do.
 Fareed I have an idea: call the child by both names.
 Saeed But which name ought to come (comes) first?
 Fareed I have a suggestion:
 Since the baby was born on the Feast (Eid) day
 why don't you call him 'Eid'?
 Saeed So his full name will be:
 'Eid Saeed'!...

A happy day

Part one

Amin Kamel Today has been a happy day in my life:

Nabeela and I announced our engagement.

Today was also Nabeela's birthday,

so we celebrated two happy occasions.

In the morning we went to a jeweller's (a shop for selling jewellery), and bought two gold engagement rings: one for Nabeela, and one for me.

In the evening we announced our engagement, and Mr. Hassan held a big party, and invited the members of the family, and their friends (friends). A (musical) band came, and they sat in the garden,

Aly Al-Halaby Tomorrow, our happy visit to Egypt will come to an end.
 I've reserved three seats on the plane;
 the plane will take off from Cairo airport
 at quarter to two in the afternoon,
 and reach Damascus airport
 in (after) nearly two hours, at ten to four.

Our visit to Egypt has been very pleasant (happy) indeed.
 From the very moment Mr. Hassan Murad met us
 everything went as well as we could wish (as desired).
 We saw many things,
 and visited many well-known historical places,
 and enjoyed many (different) trips:
 north (to the north) to the coast of Alexandria,
 and south (to the south) to Luxor and Aswan.
 We also visited the Egyptian countryside,
 and spent a nice time in the farms and fields.

We met many people
 among (from) Mr. Hassan's family and his friends,
 and Nabeela became engaged to Mr. Amin (Nabeela's engagement to Mr.
 Amin was completed).
 Thank God for this happy trip,
 and good-bye.
